Subject: GREEN BELT/ LADS CLUB AT WOODSIDE

I object to the continuing exploitation of the green belt areas to the east of aberdeen every available space is now being earmarked for development with no thought for the infrastructure . the roads are congested to breaking point at this date .objections from our local councillors are none existent the area at the lads club historically has been used by the local residents as a green area and it is just recently that the land has been neglected all part of a plan by the custodians of the lads club keep your hands off
