## What would you like to say about the issue?

Cove is a seaside coastal village and residents moved there for a variety of reasons including the beautiful views, nature and green space in what is limited in our city. The development that has already been done and is expected in the future is destroying what is already there. The culling of wildlife in order to build is abhorrent and not only does Cove not have the amenities to cope with all these new build homes the roads are in no way able to cope with the additional traffic. It already takes an age to get in and out of Cove at peak times both at the dual carriageway and the coast road and all these additional homes will make things so much worse. Where are all the amenities going to be for families moving to the area? At some point residents that already stay in the area need to be considered. Not to mention the pollution that this will all bring to the area and the families staying there?? I think many people are worried that current residents are not a priority?

## What change would you like to see made?

Without a doubt less homes needs to be built on green space, no culling of Innocent wildlife and infrastructure in the area to cope with the increased traffic. Extra Amenities available to the residents. You cannot do anything about the increased pollution that this will bring potentially harming health????
