I would like to object to the inclusion of site OP109 on the grounds that the site is inappropriate for development. The site is remote from Peterculter with no access to transport links. The site is also located in the greenbelt and the existing infrastructure is not capable of supporting this development.

There is also ancient woodland on the south part of the site and the site drains into an existing wetland habitat. Allowing development on this site would also fragment the existing greenbelt in the area opening up the area to more "infill development".

Kind regards
